Database	PostgreSQL, MySQL

Projects

- **Academic Project :**

Title : HYBRID MOBILE APPLICATION
AND INTEGRATION

Description : Developed a single application by using React Native and JavaScript that handle both iOS and Android OS.

The performance of the framework increased due to no need to convert according to the OS such as GPU frequency, CPU load, memory usage and power consumption.

- **Mini Project :**

Title : Yoga And Meditation

Description : Developed a responsible web page for importance of Yoga and Meditation.

Technology : Bootstrap,Html/CSS

Work Experience :

I worked in Yozy Technology at Trichy. There I worked as a Frontend Developer.

In it I used reactJs and Developed my own Timesheet Application for that company and also support Nippon Paint Time Tracker Application developed in our Team.

I worked for this company from March 2021 to May 2021. I could not continue in this company due to ill health.

About a month later I was doing a social Media Application as a Freelancer using ReactJs.

This is My Social Media App Link <https://github.com/Duraisamy303/WebApp>.

I am currently working as a Full Stack Developer at primatesdev software company on July 16th.
